

COMPLETE VEHICLE CONCEPTS

PERFECT CUSTOMER
BENEFIT FOR MODERN
MOBILITY

**YOUR GLOBAL MOBILITY
ENGINEERING EXPERTS**

At EDAG Gesamtfahrzeug, we support you in realizing your vision of **tomorrow's mobility**.

In doing so, we support you in the layout of your product, help you achieve your product goals, and synchronize the design with the technology.

By means of a **holistic ergonomic design**, we ensure the optimum customer experience, and in doing so we make sure that all components find their optimal place.

We also monitor compliance with all relevant laws and regulations to ensure that homologation proceeds smoothly.

As a globally recognised independent – whole vehicle developer, we have already successfully implemented numerous independent projects from the **initial concept to series production**. Whether a fresh start-up or established OEM – we support you in realizing your dream of modern mobility.

**Our services
for the mobility of tomorrow:**

- Concept development
- Benchmark
- Ergonomics
- Package
- Design-/Technology convergence
- Legal analysis
- Homologation
