

INDIVIDUAL LIGHTING SOLUTIONS

LIGHT DEVELOPMENT
ASIDE FROM THE VEHICLE

**YOUR GLOBAL MOBILITY
ENGINEERING EXPERTS**

Commercial lighting emphasises the outward appearance of your product. You know EDAG to be a professional developer from the automotive sector, and our team of experts can also professionally implement your ideas. Proof of this can be seen in successful solutions in **well-known consumer products**.

EDAG Engineering GmbH
Contact: be-interior@edag.com

The team's knowledge is based on many years of experience in lighting projects. To complete the mechanical, physical designs, we also provide support in the fields of optics and lighting, in this way pushing the physical limits.

In addition to our automotive and non-automotive experience, we also maintain very close contact with universities, and so are always at the cutting edge of technology.
